University California,
Irvine

Technical Skills

Web Development:
HTML5, JavaScript,
CSS3/Bootstrap, MERN
(MongoDB, ExpressJS, React,
NodeJS), PassportJS

Languages:

Javascript, Python

Database:

MySQL, MongoDB, Firebase

Concepts:

Agile Development, OOP
Design, RESTful APIs, CRUD
Operations, MVC Frameworks

Deployment:

AWS, Git, Heroku

Recent Projects

FeedMe

- A MERN stack web application with the emphasis on posting food related images. Users can toggle between post feeds and have the ability to create posts, follow other users, and like or comment on their posts.
- The app uses JWT tokens to keep users logged in for a certain amount of time. All data is stored and accessed using MongoDB.
- Technologies: MongoDB, ExpressJS, ReactJS, NodeJS, Firebase, Material UI, Passport JWT

FreeMarket

- A used item application that connects users with prospective "buyers."
- Follows RESTful principles and AJAX techniques for seamless API Calls. Registered users have the ability create, edit and search for listings as well as manage their account.
- Technologies: MySQL, JavaScript, NodeJS, ExpressJS, CSS3, HTML5

Bartender's Friend

- Cocktail recipe and nutrition search application built with Vanilla JavaScript, CSS and HTML
- Utilizes Nutritionix and Cocktail DB APIs to generate recipes and nutritional details on recipe ingredients
- Technologies: JavaScript, HTML5, CSS3

Other Work Experience

English Teacher / Coding Educator

Nagai BOE: Chihou Elementary - Nagai, Japan (Jul 2017 - Aug 2019)

- Provided instruction and tutoring for students ranging from age 8 to 14 in speaking and writing English.
- Introduced modern teaching methods and technologies to English Lessons.
- Integrated English to coding through joint immersion classes using Blockly and Scratch.

Administrative Business Analyst

Marvin Test Solutions - Irvine, CA (Aug 2015 - Jul 2017)

- Designed and organized new CRM setup for accounts and contacts eliminating false/duplicate data by 67% which increased lead outreach quality by 35% and reduced mail letter costs by 20%
