## Summary

A team-oriented Full Stack Developer with a background in business development. Highly motivated to work with an innovative team where I can refine my skills as a developer to create intuitive and cutting-edge user experiences from concept to delivery.

## Technical Skills

**Languages:** Javascript, HTML5, JavaScript, CSS3, Python

**Tools:** MySQL, MongoDB, ExpressJS, React, NodeJS, PassportJS, Firebase

**Concepts:** Agile Development, OOP Design, RESTful APIs, CRUD Operations, MVC Frameworks

**Deployment:** AWS, Git, Heroku

## Recent Projects

### **FeedMe**

<https://github.com/someseananigans/reinstagram> | <https://mighty-mesa-72754.herokuapp.com/>

- A MERN stack web application with the emphasis on posting food related images. Users can toggle between post feeds and has the ability to follow users, create posts, and like/comment.
- Features authentication and uses JWT tokens to keep users logged in for a certain duration.
- Technologies: MongoDB, ExpressJS, ReactJS, NodeJS, Firebase, Material UI, Passport JWT

### **FreeMarket**

<https://github.com/someseananigans/FreeMarket> | <https://mighty-coast-38363.herokuapp.com/>

- A used item application that connects users with prospective "buyers."
- Follows RESTful principles and AJAX techniques for seamless API Calls. Registered users have the ability create, edit and search for listings as well as manage their account.
- Technologies: MySQL, JavaScript, NodeJS, ExpressJS, CSS3, HTML5

### **Bartender's Friend**

<https://github.com/Smeza314/Cocktail-Nutrition> | <https://smeza314.github.io/Cocktail-Nutrition/>

- Cocktail recipe and nutrition search application built with Vanilla JavaScript, CSS and HTML.
- Utilizes Nutrionix and Cocktail DB APIs to generate recipes and nutrition details on recipe items.
- Technologies: JavaScript, HTML5, CSS3

## Other Work Experience

### **English Teacher / Coding Educator**

Nagai BOE: Chihou Elementary – Nagai, Japan (Jul 2017 – Aug 2019)

- Provided instruction and tutoring for students from ages 8 to 14 in speaking and writing English.
- Introduced modern teaching methods and technologies to English Lessons.
- Integrated English to coding through joint immersion classes using Blockly and Scratch.

### **Administrative Business Analyst**

Marvin Test Solutions – Irvine, CA (Aug 2015 – Jul 2017)

- Designed and organized new CRM setup for accounts and contacts eliminating duplicate data by 67% increasing lead outreach quality by 35% and reducing mailing costs by 20%.

## Education

**BA Business: Finance** | California State University, Fullerton

- Magna Cum Laude, Dean's Honor List

**Full Stack Bootcamp** | University California, Irvine
